Selected Bibliography II - Diamond Surface Chemistry

Jian Wei, V.S. Smentkowski and J.T. Yates, Jr.

**Surface Science Center
Department of Chemistry
University of Pittsburgh
Pittsburgh, PA 15260**

Abstract

Key articles related to the surface chemistry of diamond crystals are presented in this 1993 update of an earlier compilation. The listings are arranged chronologically. The review extends up to mid-1993. This review will be useful to workers in the field of diamond film-growth chemistry even though the extensive film-growth literature has not been reviewed.

The search methods employed are listed below:

- 1. A computerized search of Chemical Abstracts was made from the period 1989 to mid-1993 using the keywords diamond (diamonds) and surface (surfaces).**
- 2. Earlier papers were obtained from Bibliography I by V. Smentkowski and J.T. Yates, Jr., AFOSR Technical Report No. F49620-86-C-0125.**
- 3. Additional papers were obtained by hand searching the references in Bibliography I.**
- 4. Additional hand searching was done in references in the papers found in 1 above.**
- 5. Key authors in the field of the surface science of diamond were identified and an additional search was performed by cross-searching the keyword diamond (diamonds) with the key authors.**

More than 850 articles are listed.

(Upon request, an ASCII file of this bibliography can be provided)

Selected Bibliography II - Diamond Surface Chemistry

Jian Wei, V.S. Smentkowski and J.T. Yates, Jr.

**Surface Science Center
